Re: Bylaw# 279D2016 Change land use from RC1 to RC1S at 10501 Sacramento Drive SW

To Mayor Nenshi and city councillors;

We state, with this letter, our full support and approval of Margo Wood and Harvey Wood's application for rezoning their property at 10501 Sacramento Dr SW from RC1 to RC1S.

We have been neighbors of Margo and Harvey for more than 30 years and they are good community minded individuals. They take great care of their own property and also the property they purchased for rental purposes. They have made many upgrades and improvements to the rental property and it shows well. I feel quite confident that they will continue to pay close attention to the property and the tenants they place in it.

We worry more about the illegal suites in our neighbourhood and feel that is what needs to be addressed.

Thank you,
