HIGHLIGHTS

- This application seeks to redesignate the subject site to allow for semi-detached and duplex dwellings in addition to the building types that are already allowed (e.g. single detached dwellings and secondary suites).
- The proposal represents an appropriate density increase of a residential site, allows for development that is compatible with the character of the existing neighbourhood and is in keeping with the applicable policies of the *Municipal Development Plan* (MDP).
- What does this mean to Calgarians? The proposed Residential – Contextual One / Two Dwelling (R-C2) District would allow for greater housing choice within the community and more efficient use of existing infrastructure and nearby amenities.
- Why does this matter? The proposed R-C2 District would allow for more housing options that may better accommodate the evolving needs of different age groups, lifestyles and demographics.
- Amendments to the *Montgomery Area Redevelopment Plan* (ARP) are required to accommodate the proposal.
- No development permit has been submitted at this time.
- There is no previous Council direction related to this proposal.

ENGAGEMENT AND COMMUNICATION

- Outreach was undertaken by the Applicant
- Public/interested parties were informed by Administration

Applicant-Led Outreach

As part of the review of the proposed land use amendment application, the applicant was encouraged to use the [Applicant Outreach Toolkit](#) to assess which level of outreach with the public/interested parties and respective community association was appropriate. In response, the applicant distributed letters to adjacent residents and contacted the Montgomery Community Association. The Applicant Outreach Summary can be found in Attachment 4.

City-Led Outreach

In keeping with Administration's practices, this application was circulated to the public/interested parties, notice posted on-site and published [online](#). Notification letters were also sent to adjacent landowners.

The application initially proposed to redesignate the site to Residential – Density Grade-Oriented Infill (R-CG) District. Administration received 16 letters of opposition from the public and 1 letter of opposition from the Montgomery Community Association (Attachment 5). The applicant amended their proposal based on the community feedback and the R-C2 District was proposed instead.

Administration considered the relevant planning issues specific to the application and has determined the proposal to be appropriate. Details of the development will be reviewed and determined at the development permit stage.

Following Calgary Planning Commission, notifications for a Public Hearing of Council will be posted on-site and mailed out to adjacent landowners. In addition, Commission's recommendation and the date of the Public Hearing will be advertised.

IMPLICATIONS

Social

The proposed land use would allow for the development of two single detached dwellings with a subdivision, or a semi-detached dwelling or duplex dwelling. This would allow for a wider range of housing types than the existing R-C1 District and may better accommodate the housing needs of different age groups, lifestyles and demographics.

Environmental

This application does not include any actions that specifically address the objectives of the *Calgary Climate Strategy – Pathways to 2050*. Further opportunities to align future development on this site with applicable climate strategies will be explored and encouraged at subsequent development approval stages.

Economic

The proposed land use amendment would enable a development of up to two dwelling units on site which would provide more housing opportunities and make more efficient use of existing infrastructure and services.

Service and Financial Implications

No anticipated financial impact.

RISK

There are no known risks associated with this proposal.
