

# Applicant Outreach Summary

## Community Outreach on Planning & Development Applicant-led Outreach Summary

Please complete this form and include with your application submission.

**Project name:** 20200 Walden BV SE

Did you conduct community outreach on your application?  YES or  NO

If no, please provide your rationale for why you did not conduct outreach.

Following the application submission and circulation, we attempted to reach out to the Walden Community Association. We were informed by the Federation of Calgary Communities as well as the Neighbourhood Partnership Coordinator for Chaparral/Walden that the Walden Community Association is no longer active. We reached out to the Ward 14 office to inform them of the application and to ask if they knew of any community groups that we should reach out to.

### Outreach Strategy

Provide an overview of your outreach strategy, summary of tactics and techniques you undertook (Include dates, locations, # of participants and any other relevant details)

As discussed in the box below, all adjacent landowners are either aware of and supportive of the project or have not provided comments when given the opportunity through the City's circulation process. Additional outreach was done to the local Ward office and the project team had met with the Councillor prior to submission at which point, no concerns were raised. No additional requests to meet have been received at this time, however if any subsequent requests come in, we will meet with any interested parties.

### Affected Parties

Who did you connect with in your outreach program? List all groups you connected with. (Please do not include individual names)

The subject site is currently part of the Southview Alliance Church property. The Church is aware of and is supportive of the application for land use redesignation. A representative of the Church has signed the landowner authorization for this application to proceed. A letter of support from the Church has been included in the resubmission. The remainder of the Church's property bounds the subject site to the west and south.

The B.F.I landfill is located directly east of the subject site. It is expected that B.F.I would have been circulated this application as a part of the City's circulation process. They have not provided any comments at this time.

Additionally, the developers of the subject site, were also the developers of the commercial properties directly north of the subject site.
