Comment Themes + Our Responses

Outreach Process

Our best practices for outreach were designed to share information on the development vision and provide communication channels for interested stakeholders to share their queries and thoughts early in the review process with the intent of maintaining a respectful and transparent dialogue.

Stakeholder Feedback + What We Heard

The project team communicated with the Saddleridge Residents' Community Association (SRCA) in February, to share information about the land use amendment. To date, the project team has not received any subsequent meeting invitations, comments, or questions from the SRCA.

To date, the project team received one phone call from one Saddleridge resident that voiced support for the application. The project team is pleased to keep the communication lines open throughout the entire review process and will update the City Administration, Planning Commission and Council on any feedback that is received.

Our Philosophy to Applicant-Led Outreach

Since no single design solution can satisfy all stakeholders involved, the project team cannot integrate everything suggested by all neighbours. As a result, our promise is to continue to be open and transparent about how we reach our conclusions while cultivating a constructive dialogue and we are pleased to abide by Council's visions for the areas and communities we serve.
