I support the LOC2024-0146 Rezoning at 1007-6 Ave SW. I expect developers to build up as we are in a major housing crisis. I hope this development will be 30+ stores to accommodate many units for new families and citizens to access affordable housing.

This small area of land needs to remain as a public parking lot. With the recent construction of 2 new Attainable Homes Calgary condo buildings on City-owned land, they did not build enough parking for all the residents there and the street parking is completely, overly full. There is no space for residents or visitors to park. This impacts the stores, restaurants and small businesses in the downtown west end area that need parking spaces for clients to park in. the residents and visitors of attainable home condo buildings need a space to park. there does not need to be another condo building in this area as there are enough. This area needs to remain for parking only. Building a condo in this area specifically will block natural light to all surrounding residents. Need more trees in this area along the sidewalks which were removed when other condos were built on that same street.

Would be best to use land plot for green space as the downtown core is lacking green space.
