**HIGHLIGHTS**

- This land use amendment application seeks to remove the density modifier and increase the allowable units in a multi-residential building from four to seven.
- The proposal represents an appropriate density increase of a residential site, allows for development that may be compatible with the character of the existing neighbourhood and is in keeping with the applicable policies of the *Municipal Development Plan* (MDP).
- What does this mean to Calgarians? The proposal would provide for greater housing choices within the community and more efficient use of existing infrastructure and nearby amenities.
- Why does this matter? The proposed Multi-Residential – Contextual Grade-Oriented (M-CG) District would allow for additional dwelling units that may better accommodate the evolving needs of different age groups, lifestyles and demographics.
- An amendment to the *Bankview Area Redevelopment Plan* (ARP) is required to accommodate the proposal.
- No development permit has been submitted at this time.
- There is no previous Council direction related to this proposal.
