Community Outreach for Planning & Development Applicant-led Outreach Summary

What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

The feedback received was overwhelmingly positive.

Noise and traffic was a concern that we're addressing by creating a larger parking stall, reducing 2 bedroom to a 1 bedroom and installing insulation for noise protection. I have pictures to prove the back yard has been changed to address the parking concern.

How did input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

The input gathered from the community during the outreach process played significant roll, i got to meet a-lot of members of the community, some asked me to help them

navigate the process of rezoning the property, over all it was pleasant experience for all involved. we got to meet the neighbours, the neighbours felt like their input really did shape the outcome. and their concerns were addressed promptly.

How did you close the loop?

Provide a summary of how you shared outreach outcomes and final project decisions with those who participated in your outreach. (Please include any reports or supplementary materials as attachments)

Share the key outcomes on social media platforms to reach a wider audience.
