

Background and Previous Council Direction

This attachment provides a summary of the background and previous Council direction related to Growth Applications, as well as new community growth decision-making in general.

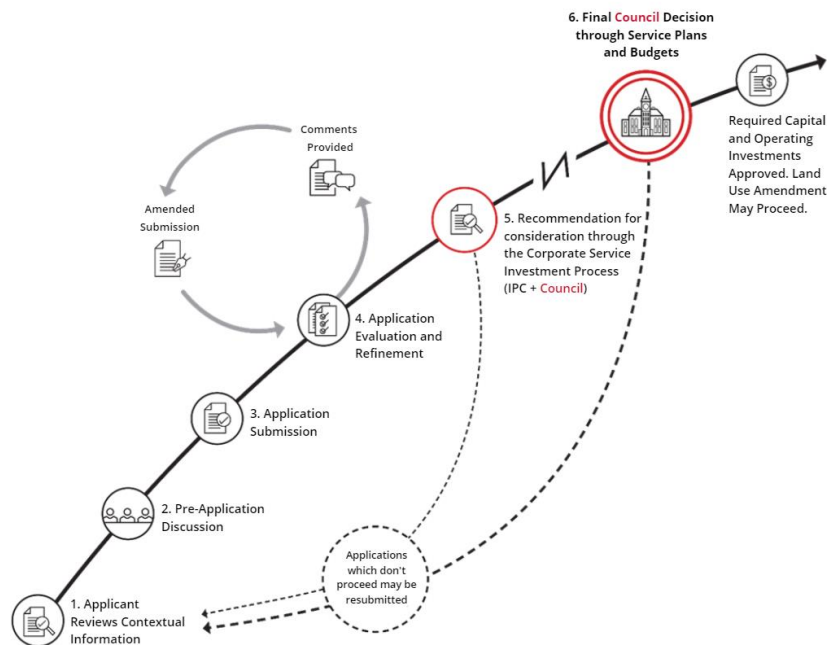

Background

2024 May represented the first time that new community Growth Applications were brought forward in alignment with the redesigned system approved by Council in 2023 July ([IP2023-0559](#) and Figure 1 below). The redesigned approach adopts a more responsive application-based model, driven by improved information awareness and more empirical evaluation criteria. An applicant can apply at any time, but final decisions will be made through the annual service planning and budgeting process.

Since the last semi-annual update briefing (IP2024-0718), the operating and capital infrastructure investments required to enable the four Growth Applications directed by Council for consideration in the 2024 Adjustments to the 2023-2026 Service Plans and Budgets were funded; these Growth Applications are therefore deemed approved.

Administration continues to work with the applicants of nine other Growth Applications; these include three that were presented to Infrastructure and Planning Committee in 2024 May and saw Council direct Administration to continue collaborating with applicants, as well as six additional applications that have not yet been brought forward to the Infrastructure and Planning Committee.

Bylaws, Regulations, Council Policies

Growth decisions and authorities are governed by the following policies and regulations.

Municipal Development Plan, 2020

In accordance with the Municipal Government Act, Calgary’s Municipal Development Plan provides the long-term strategic framework for growth and development to achieve the following seven goals: Compact Urban Form, Urban Design Excellence, Greening the City, Great Communities, Connected City, Prosperous Economy, and Strategic Growth.

Section 5 of the Municipal Development Plan provides direction on strategic growth to achieve the best possible social, environmental, and economic outcomes. Section 4.3 of the New

Community Planning Guidebook (Volume 2, Part 1 of the Municipal Development Plan) contains policy guidance on the development, design, and implementation of new communities, including policies that set out the applicability and evaluation considerations for Growth Applications.
