As a Calgarian, I am writing to express my strong support for the proposed affordable housing project at 6623 Bowness Road NW. The need for safe, accessible, and affordable housing is a critical reality in Calgary, and this vital initiative is an important step towards addressing the ongoing (and growing) need for families in our city.

The benefits of supporting affordable housing projects like the one proposed in Bowness are numerous and have tremendous positive impact on the families, neighbourhoods, and communities in which they are built.

Families are provided with much-needed stability through housing infrastructure builds such as this one, thereby removing the stress, insecurity, and trauma that comes with trying to find and keep a roof over one's head and/or keep a family together. The simple act of being housed has an immediate impact on reducing a family's overall stress and improves the mental health of the entire family unit, which in turn provides opportunities to focus on longer-term aspects of contributing to the well-being of their community. Having stable housing allows families to focus on active participation within their natural support networks, places of employment, community and volunteer groups, parent groups and school activities, as well as engage with places of worship, support local businesses, and contribute to the larger Calgary economy.

Bowness is a resilient, inclusive, and diverse community. This affordable housing build will only strengthen the sense of community connection within Bowness, not hinder or diminish it.

I ask and encourage city council to approve this proposed project as it is through supporting affordable housing initiatives such as this that Calgary will continue to be, and be seen, as a world-class city and be a welcoming and inclusive place for ALL who call it home.
