Dear Sir/Madam,

As the residents and I am quite sure that most residents of 8710 Horton Road SW would agree with me I am worried about following about this project

1. There is no road infrastructure built for this project. We already have problems getting on Mcleod Trail (especially North) from our residency. Traffic in the morning and weekends is horrible on the intersection of Horton Road and Heritage drive.
2. Pedestrian walk on Horton Road will be most likely blocked during construction.
3. Some construction has already been started on this site prior to this hearing indicating that decision has been already made (hopefully my guess is incorrect)

From ecological stand point having residential building on the intersection of Mcleod Trail and Heritage Drive is bad for its future residents Car gas exhaustion fumes are extremely hazardous to peoples health. Level of noise pollution is very hight there too. Wondering if there was any approval on this project from medical/ecological services.

Sincerely,
Vladimir lev
