

Images

Image 1: Retaining Walls

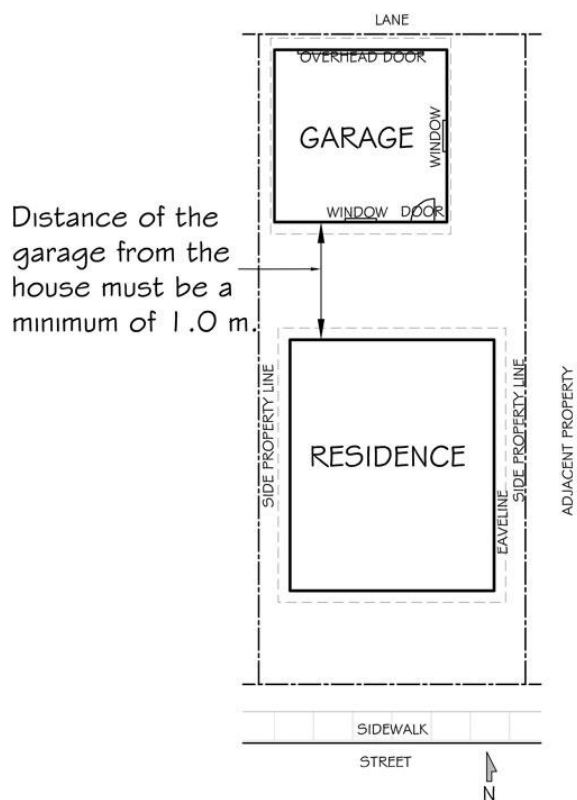

Example of how to measure retaining wall height, which is currently not clear in the text. (from the 'Fences & retaining walls' page on Calgary.ca)

Image 2: Side Setback Rules

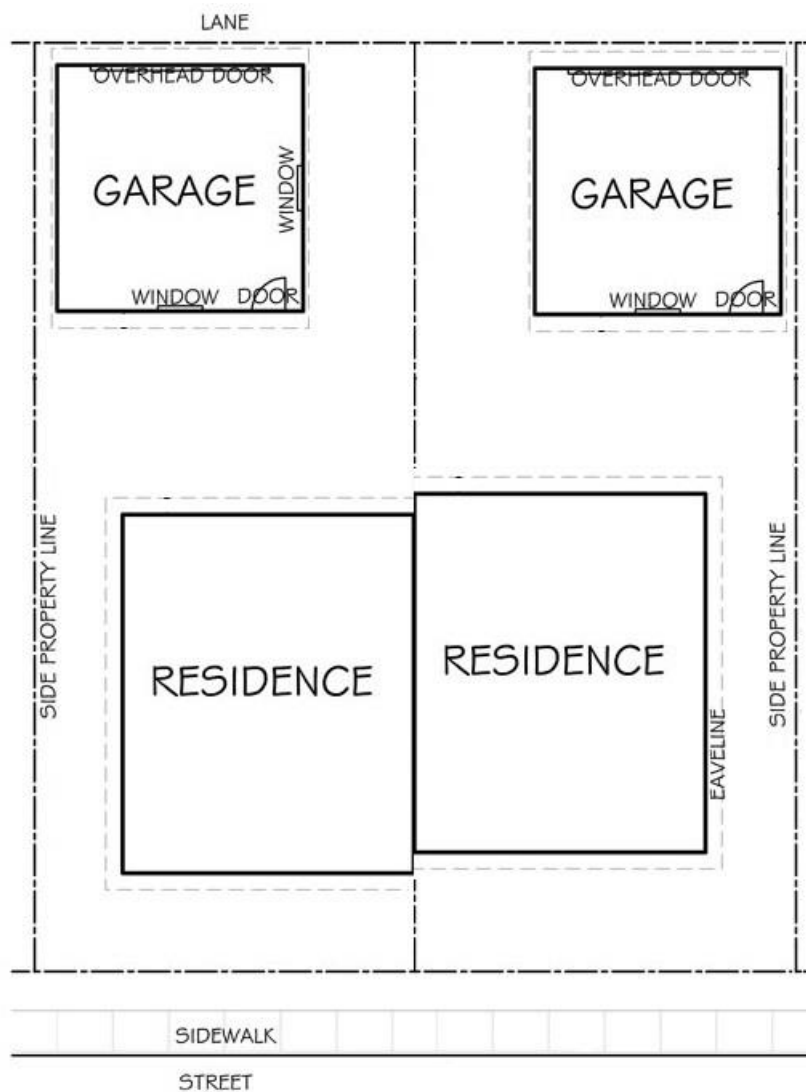

Example showing when a window well would require a development permit when developing a basement. (from the 'Home renovations & basements' page on Calgary.ca)

Image 3: Separation Distance for Accessory Residential Buildings

Example showing the separation distance required for any Accessory Residential Building. (from the 'Garage, shed, greenhouse, carport' page on Calgary.ca)

Image 4: Accessory Residential Buildings on a Subdivided Parcel

Example showing two garages, both exempt from a development permit as the parcel has been subdivided into two lots. Currently a non-subdivided lot would require a development permit for one of the garages. (Image adapted from the 'Garage, shed, greenhouse, carport' page on Calgary.ca)
