BYLAW NUMBER 30P2025

BEING A BYLAW OF THE CITY OF CALGARY TO AMEND THE BRENTWOOD STATION AREA REDEVELOPMENT PLAN BYLAW 74P2008 (IP2024-1066) *****

WHEREAS it is desirable to amend the Brentwood Station Area Redevelopment Plan Bylaw 74P2008;

AND WHEREAS Council has held a public hearing as required by Section 692 of the *Municipal Government Act*, R.S.A. 2000, c.M-26, as amended:

NOW, THEREFORE, THE COUNCIL OF THE CITY OF CALGARY ENACTS AS FOLLOWS:

1. The Brentwood Station Area Redevelopment Plan attached to and forming part of Bylaw 74P2008, is hereby amended as follows:

(a) In Section 1.2.4 Brentwood LRT Station, delete the sentence “Brentwood has the largest park and ride facility in the city, containing 1381 surface parking stalls located immediately south of Crowchild Trail.”

(b) In Section 1.2.6 Rationale for Station Area Boundaries, delete the following paragraphs:

“The area south of Crowchild Trail is currently being used for surface parking lots for LRT users and by the University Innovation Park. It is anticipated that the existing Park’n’Ride surface parking lots, bus loop and supporting transit facilities will remain for a number of years.

University Innovation Park is regulated by a separate approval process for development since the parcels are owned by the Province of Alberta and have a specific land use purpose of scientific research and development. The Province of Alberta, University of Calgary and the City of Calgary have a partnership agreement to regulate this area and a Draft Master Plan is being prepared for the research park area.

The development of Draft Master Plan will be subject to a separate exercise and this will be determined in consultation with the Province of Alberta, City of Calgary, the University of Calgary, Innovation Park and the surrounding communities.”

(c) In Section 4.3.1 Adjusted Maximum FAR, delete the following paragraph:

“Sites currently with a lower allowed maximum FAR have been designated with a maximum density, without bonus, to 2.0 FAR. This applies to Density Zones B2, C2, and D2.”
