

Background and Previous Council Direction

Background

The City of Calgary began work on RouteAhead in 2012 as a 30-year plan to guide public transit service, infrastructure, and investments. Council approved the plan in 2013. RouteAhead's goals are to improve transit service and the customer experience and ensure development throughout the city consistently prioritizes access to safe and reliable public transportation.

In July 2023, Council approved a 10-year update to RouteAhead. Later that year, Council received the RouteAhead Implementation Plan for information. It included investment scenarios, projected ridership, and a 10-year investment plan. The 2023 Annual Status Report included progress on operating and capital investments, non-seasonal bus route changes, and updates on all 159 strategies in RouteAhead.
