Small Land Mammal = Arctic H

A close-up photograph of a person's hand pointing at a document. The document contains several lines of text, some of which are obscured by blue horizontal redaction bars. A large red arrow graphic points from the right side of the frame towards the document.

A person wearing a blue long-sleeved shirt and black pants is standing in a room. The background features a red wall on the left and a blue wall on the right. A white object, possibly a lamp or a piece of furniture, is visible on the blue wall. The person is holding a white cane. The text "Emily visited Spark when she was five years old. That visit changed everything." is overlaid on the image in a large, white, bold font.

Emily visited Spark when she was five years old. That visit changed everything.
