

Background and Previous Council Direction

Background

The City's Quarterly Report First Quarter 2025, is a tool used by the Chief Administrative Officer (CAO) to share information with Council and Calgarians about City services and work underway within the organization to support Council's direction and advance important initiatives. The report supports a modernized government, and the delivery of Council's priorities as identified through the Shared Strategic Agenda.

Starting in the first quarter of 2025, The City's Quarterly Report will integrate the Chief Administrative Officer's Quarterly Report with information shared through the former Progress Update reports. Progress Updates fulfill Council's policy reporting requirement per the Multi-Year Business Planning and Budgeting Policy (CFO004) and supports the Transparency and Accountability Policy (CC039). It includes performance reporting commitments for the 2023-2026 Service Plans and Budgets cycle, which was approved in 2022 November (C2022-1051).

Context

The City of Calgary is a large, complex organization, and it is important citizens and members of Council have line of sight into the work underway to achieve objectives outlined in the 2023-2026 Service Plan and Budgets and to advance Council's priorities. This report increases transparency into the work directed by Council to Administration and provides a single source for sharing back motions and Notices of Motion, and outstanding Administrative Inquiries.
