Good morning Mayor and Council. My name is Calista Wintrip, and I am speaking in opposition to the Land use redesignation at 2787 86 Ave SE. Currently, this area is used as a mobile home park. One thing I keep hearing about housing is the need for increased housing options. A mobile home park is an example of alternative housing. The people that live here may do so by choice or because it fits in their budget, yet they are being forced out of their home. It's obvious the city would rather have townhomes and high rises for more people in this area than to just leave the area as it is. Not only that, but this proposed development doesn't even need to be in this space at all. I walked past the mobile home park and spotted two empty fields that could support a variety of housing types and it won't displace anyone from their homes. As well, if the developer built in one of these fields it would be closer to the future Green Line. That way you could have residents from both the mobile home park and this new location accessing the train, and isn't that what the city wants? I'm worried what will happen to these residents if this development is approved. Where can these people move to with their family and pets? There are not a lot of other mobile home parks anymore because the city keeps removing them. Times are hard for everyone right now, but they will be especially more challenging for these residents if they are told to leave. I hope that this council will vote no to this development considering those who will be affected and thank you for the opportunity to speak.

I am in opposition to this land use redesignation because the majority of the people living there can only afford a mobile home and have probably lived there a long time. The area is very quiet and the residents are good to keep to themselves. In years past when the city talked about removing a mobile home park there was always a lot of opposition, yet those people were not listened to. Not only that, but they were not given fair compensation for their mobile home to move elsewhere. The area is also suitable for the residents to get to their jobs everyday. The other problem I have with this is that there is no guarantee the Green Line will be built because of the cost burden it's causing to taxpayers. Even if the train is completed, these people don't need to be moved since the Green Line will be going around the mobile home park anyway. No one deserves to be pushed out of their home. The city should always be looking at how to disrupt the least amount of people when building new housing and listening to the current residents if it's something they want.
