## Community Outreach for Planning & Development Applicant-led Outreach Summary

### What did you hear?

Provide a summary of main issues and ideas that were raised by participants in your outreach.

The flyers have been distributed and contact with the community has been initiated. At this time we have had no feedback but it is early in the process. If we receive feedback we will address concerns with the City file manager and update future strategies.

### How did stakeholder input influence decisions?

Provide a summary of how the issues and ideas summarized above influenced project decisions. If they did not, provide a response for why.

Depending on the type of feedback we get, it may or may not influence our decisions. Typical feedback received on rezone applications deal with development permit issues. We will address input when it is appropriate.

No feedback received

### How did you close the loop with stakeholders?

Provide a summary of how you shared outreach outcomes and final project decisions with the stakeholders that participated in your outreach. (Please include any reports or supplementary materials as attachments)

The loop on a rezone generally ends with approval or denial of the rezone. But development permit applications will remain open with stakeholders when that part of the process commences.

Sent email to Community association and re-delivered letters to businesses notifying of transition of subject parcel currently zoned 1-g to 1-C. No feedback response
