RESPONSE TO EXTERNAL CIRCULATION

Dear Mr. Siddhartha,

RE: Saatootsi (West Macleod Residual Lands) Area Structure Plan

Thank you for the opportunity to provide our comments on the proposed Saatootsi ASP. Foothills County has reviewed the materials, and we are satisfied that our concerns have been addressed. Therefore, we extend our support for the ASP and appreciation to the City of Calgary Planning Department for their efforts toward collaboration.

Policies within the draft ASP address our concerns regarding the municipal boundary interface and access from Highway 552. In addition, the future planning considerations noted in the ASP for upgrades to the intersection at Highway 552 and Highway 2/Macleod Trail ensure that Foothills County will be engaged prior to the development of this infrastructure.

We look forward to maintaining a productive relationship with the City of Calgary on important matters for the benefit of both our communities in the future.

Sincerely,
Foothills County

Heather Hemingway RPP MCIP
Director of Planning
Foothills County
