

Summary of CPC Closed Session

As part of the Land Use Bylaw Housekeeping Amendments report (IP2025-0251), a closed session was held on 2025 February 27 with Calgary Planning Commission for members to provide feedback to the project team on draft amendments to Land Use Bylaw 1P2007. Feedback from the session was considered and incorporated, where possible, in the proposed amendments. Comments and feedback received regarding child care service in residential areas is summarized as follows:

Removing the requirement for a public hearing for child-care service in an existing building

- Discussion around the decision to include child care service only in existing buildings, some comments that the use should be allowed more broadly.
- Confirmed that the locational criteria within the Child Care Service Policy and Development Guidelines are not changing as part of this amendment
