 Distrib-Document 2
 CITY CLERK'S DEPARTMENT

Supporting Data and Maps

Figures 1 and 2 present development permit activity within the R-CG and H-GO Districts for new housing. Figure 1 shows the number of applications submitted, while Figure 2 illustrates the total number of units proposed. The data covers the period from Q1 2023 through Q3 2025 to allow for comparison over time. The citywide rezoning took effect on August 6, 2024 (Q3 2024), which serves as a key reference point for interpreting trends. For this analysis, Multiple Dwelling Units are defined as any application within the H-GO District proposing three or more units. The data does not include new secondary suites, and unit counts exclude proposed secondary suites.
