Members of Calgary City Council,

Dear Members of Council,

We are writing this letter in support of the entire planning process of the Rundle Station Area Master Plan. As residents of Rundle for over forty years, we found the opportunity for direct public input into a plan in, advance of any decisions, to be extremely valuable. To our recollection, this is the first time ever that residents of this community have been asked for input.

We attended every presentation and meeting and found that the staff had truly listened to residents' ideas and concerns. Nobody ever gets everything they want, as progress has winners and losers. But we do truly believe this is a good plan and should most definitely have your approval.

Also, the staff involved in the exercise should be congratulated for doing a superb job of communicating the entire process and explaining clearly the City's processes.

Kindest Regards,
Jack and Margaret Qually
