

Route Changes in 2025

The table on the next page shows changes in average daily weekday boardings and residents living within 400 metres of bus stops for the routes in 2025. The map on page three of this attachment shows the route changes geographically across the city.

In the Highfield Industrial area in southeast Calgary, four routes were consolidated into two. While this change resulted in 275 residents being located beyond 400 metres of a bus stop, average daily boardings increased by 72.

In the community of Tuscany in northwest Calgary, three routes were consolidated into two. Following these changes, bus stop access increased for 114 residents, and average daily boardings rose by 154.

Additional individual route changes and service additions were implemented in 2025. New routes were introduced in the developing communities of Homestead (NE), Livingston (NE), and Alpine Park (SW). Ridership on Route 301 continued to grow throughout the year, and customers now benefit from enhanced comfort and fast, frequent service following its conversion to MAX Green.

Taken together, these routes achieved a 13 per cent increase in average daily boardings and improved access for almost 2,000 additional residents within 400 metres of a bus stop.

Table 1: Changes in ridership and population occurring from route changes.

2024		2025		2024	2025	Change
Routes	Boardings	Routes	Boardings	Population Served		
Highfield Industrial route changes						
30 - Highfield Industrial	523	15 - Deerfoot Meadows	874	275	0	-275
81 - Macleod Trail	903	81 - Highfield	935			
106 - Southland/Deerfoot Meadows	141	Deleted	0			
449 - Eau Claire/Parkhill	170	Deleted	0
