

Summary of Growth Applications

This attachment provides summary tables outlining the status, proposed housing supply and capital and operating investments required for Growth Applications submitted since intake began in 2023 Q4, as of the date of this report.

- Table 1 is a high-level summary of all Growth Applications submitted;
- Table 2 provides information on funded and approved Growth Applications;
- Table 3 provides information on Growth Applications pending consideration for the 2027-2030 Business Plans and Budgets;
- Table 4 provides information on Growth Applications under review, alongside applications where Administration continues to collaborate with applicants on planning for servicing; and
- Map 1 shows Growth Application locations.

Additional capital and operating investments, beyond those noted here, will be required in future years to support continued growth and community completion. Capital and operating investment amounts are subject to change through project refinement and through the Business Plans and Budgets process. Some capital investments may serve more than one Growth Application.

Table 1: Summary of Growth Applications Submitted since 2023 Intake

Growth Application Status	Proposed Homes	Capital Requirement (\$M)			Operating Cost Requirement (\$M)		
		Initially		Future Growth (Unfunded)	Year 1		At Buildout (Unfunded)
		Funded	Unfunded		Funded	Unfunded	
Approved (as of 2026 March)	16,225	205	0	990	2.59	0	15.01
For Budget Consideration	15,150	-	378	1146	-	0.89	25.27
Continued Collaboration	2,000	-	0	0	-	0	0
Under Review	1,930	-	0	425	-	0.04	1.54
TOTAL	36,305	583		1,764	3.52		41.82

Note: Some capital requirements appear across the approved, pending and under- review Growth Applications. To avoid double- counting, these shared requirements have been included only once in the total calculations. Please note totals in this attachment may not add due to rounding.

(Note A) Absorption in units is based on building permits issued within each Growth Application as of 2025 December 18.

(Note B) These investments will be funded by self-supported debt to be repaid through off-site levies and/or user fees.

(Note C) Some Belvedere related infrastructure is required for some or all the Growth Applications. These projects have been accounted for once in the totals.

(Note D) Some Glacier Ridge related infrastructure is required for some or all the Growth Applications. These projects have just been accounted for once in the totals.

(Note E) Glacier Ridge Emergency Response Station is Funded Infrastructure after the November 2025 budget decisions; hence it is being excluded from the Glacier B, Glacier C Esker Valley, Glacier D Jayman Dunn and Glacier 3D Developments Future Growth Unfunded numbers.

(Note F) Capital and funding allocations are preliminary, as they are determined at the time of application and exclude final cost updates and adjustments.

(Note B) Sanitary Trunk Upgrade Utility project is required for both Haskayne and West View.

(Note C) Capital and funding allocations are preliminary, as they are determined at the time of application and exclude final cost updates and adjustments.

(Note D) Some of the projects listed for the West portion of Glacier Ridge C (GA2024-008) have already been mentioned in Table 2 as they are also required for other Glacier Ridge Growth Applications.

(Note E) Glacier Ridge Emergency Response Station is a Funded Infrastructure after November budget; hence it is being excluded from Glacier Ridge – West Portion Future Growth Unfunded number.

(Note F) The overall West View application remains in budget consideration; however Administration is currently reviewing an operating-cost only sub-application of 280 proposed homes for the eastern portion of application. The 280 homes are already accounted for in this overall total.
