Integrated Civic Facility Planning Program Workstreams

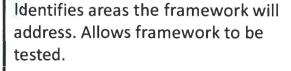

A common, Council directed vision for facilities. Work plans for next 10 to 20 years.

Strategies & Plans

- Decision making criteria for colocation of civic services, location of facilities, single vs. multi-use, etc.
- Gives mandate to a central body to make decisions
- Plans: what facilities will be delivered and priorities for reinvestment

Identifies how we plan facilities in a coordinated way to support the shared vision.

Civic Facility Framework

- Roles and responsibilities for the organization
- When and how governance bodies make decisions
- New tools for planning
- Standardized documentation for facility planning

Learning Projects

- Demonstrates future state for Council and the organization
- Uncovers gaps in current processes
- Each project focuses on an area specific to desired outcomes for civic facilities
