

ACTION PLAN 2015-2018 UPDATE

EXECUTIVE SUMMARY

In support of Action Plan 2015-2018, presentations to the Standing Policy Committees (SPC) and other Committees of Council (see Attachment 1) are scheduled for September 2014. Presentations are an update for Committees between the approval of Council Priorities in May 2014 and the business plan and budget deliberations in November 2014. Presentations are a high-level overview of draft department business plans highlighting how the department and other partners are proposing to meet Council Priorities within the parameters set out on 2014 May 5. This update includes verbal progress information on the Action Plan progress from a corporate perspective in preparation of the full Public Release in November 2013.

ADMINISTRATION RECOMMENDATION

That the Priority and Finance Committee receive this report for information.

PREVIOUS COUNCIL DIRECTION / POLICY

On 2012 March 20 (PFC 2012-33), following the debrief of the 2012-2014 Business Plan and Budget process (BPBC3), Administration committed to explore ways to improve opportunities for Council members to familiarize themselves with the proposed business plans and budgets prior to deliberations.

On 2013 December 10, report PFC2013-0737 was approved by the Priorities and Finance Committee stating that "Assuming a May approval of priorities and indicative tax, utility rates and user fees, this process targets Administrative Leadership Team approval of draft plans and budgets in September, followed by strategic departmental and civic partner presentations to Standing Policy Committees in September / October."

On 2014 May 5, Council approved their priorities for 2015-2018 (C2014-0401), as well as indicative tax rates, utility rates and user fee recovery rates for 2015-2018. Administration has used these as guidance and direction in preparing business plans and budgets, for Council's review in November 2014. During Council's debates on May 5, Council members requested that the September SPC presentations provide early information on projected service levels and new initiatives so that Council members can be better prepared for the November 2014 deliberations.

BACKGROUND

Action Plan 2015-2018 is the approved four-year business plan and budget planning process at The City of Calgary. A debrief of BPBC3 identified Council's desire for earlier indications of the expected content of proposed business plans.

In response, departments and other partners are providing a "check in" with Council through SPC/Committee presentations as part of Phase 3 of the approved Action Plan 2015-2018 process. Business plan presentations bridge the gap between the approval of rates and Council Priorities in May 2014 and the public release and deliberation of business plans and budgets in November 2014.
