### **EXECUTIVE SUMMARY**

Councillor for Ward 14, Peter Demong, is sponsoring an application to the Council Innovation Fund ("CIF") with the cooperation and support of the One Calgary Program Team and The City of Calgary's Finance business unit to improve budget transparency and communications during the One Calgary program which is developing The City of Calgary's 2019-2022 business plans and budgets. Councillor Demong is requesting a withdrawal of \$150,000 to support several measures to improve the transparency of how citizens' tax dollars are spent and enhanced public communications during the One Calgary process. The funds would be utilized over the next several months and fund online tools such as an improved property tax calculator, enhance current communication channels like the property tax bill and support improved communications and marketing of the One Calgary process (see Attachment 1 & Attachment 2).

### **RECOMMENDATION:**

1. That the Priorities and Finance Committee recommends that Council accept the application for information; and
2. That the Priorities and Finance Committee consider this application for Council to utilize the Council Innovation Fund for the Improving Budget Transparency in the amount of \$150,000 and make a recommendation to Council.

### **PREVIOUS COUNCIL DIRECTION / POLICY**

As part of the 2010 November deliberations on the 2011 budget, Council established the CIF and directed Administration to develop Terms of Reference for the fund and create criteria that would guide Council on withdrawals request from the CIF. The Terms of Reference (see attachment 3) were adopted in March 2011 and are based on the following:

- The project will contribute to Council's goals and has potential City-wide application;
- The project is innovative or a pilot project or experiment that proposes a new or different way of doing The City's work.

Successful applications must provide detailed documentation and address one of the following:

- a) One-time start up or "seed" funds for initiatives or programs which will support or contribute to Council's priorities.
- b) Pilot projects or experiments that have potential to change city-wide policies and procedures.

Any Council member(s) can submit an application to the Priorities and Finance Committee for review and consideration and ultimately for Council consideration and approval. The proposal for funding must demonstrate credibility, fiscal responsibility and good management which will be important considerations in the evaluation of applications.
