Trail Appliances – Crowfoot

Project Profile

We are looking at purchasing and developing 650 Crowfoot Cres NW for the purposes of a new Trail Appliances store.

Prior to making this substantial investment, we would like to receive feedback from the City of Calgary in terms of zoning and development permit concerns.

We intend to use the building primarily as a retail showroom, with a small amount of office and warehouse space to support our operations. We believe this is a good fit for the area.

Regards,

John Broderick
Vice President
