RE: City of Calgary Mainstreets Program

The Community of Bowness has been the recipient of a Complete Streets and a Main Streets program. We have and will continue to support a main street that is accessible to all including bikes, pedestrians and cars. Along with an engaged and supporting Bowness Business Improvement Area we embrace the positive changes that we see on Bowness Road. We also appreciate the care and attention that the city has spent in ensuring the feel of a small prairie town centre has been retained. This is what makes our Mainstreet unique.

The changes to density along this corridor will support a vibrant and engaged business community that will continue to provide services to the residents of the community as well as bring life to the street. We are writing to express our support for the proposed city initiated land use redesignations (rezoning) and the associated amendments to the Bowness Area Redevelopment Plan.

The Bowness Planning and Development Committee are supportive of the program and compliment city staff on a meaningful program. We sincerely hope to see the continuation of this program so that all designated main streets can be included.

Sincerely,
Planning and Development Committee
Bowness Community Association
