INVESTIGATION: ALTERNATIVES AND ANALYSIS

The proposal allows for development that has the ability to be compatible with the established building form of the existing neighbourhood.

Planning Considerations

The primary planning consideration in evaluation of this application was whether it aligns with the *Municipal Development Plan* and the *Albert Park/Radisson Heights Area Redevelopment Plan*.

Land Use

The proposed Residential – Grade-Oriented Infill (R-CG) District is a residential designation that allows for two to three storey (11 metres maximum) rowhouse development where one façade of each dwelling unit must directly face a public street. The maximum density of 75 units per hectare would allow for up to four dwelling units on the subject site.

The R-CG District also allows for a range of other low density housing forms such as single detached dwellings, semi-detached dwellings and duplex dwellings. Secondary suites (one Backyard Suite or Secondary Suite per unit) are also allowable in R-CG developments. Secondary suites do not count against allowable density and do not require motor vehicle parking stalls in the R-CG District, provided they are less than 45 square metres in size.

Development and Site Design

The proposed redesignation provides guidance for site development including appropriate uses, height and building massing, landscaping and parking.

Environmental

An environmental site assessment was not required for this application.

Transportation Networks

Neither a Traffic Impact Assessment nor a Parking Study were required as part of this land use amendment application. A Calgary Transit bus stop is located approximately 180 metres from the site, along 36 Street SE. The site can be accessed via a rear lane.

Utilities and Servicing

Water, sanitary and storm mains are available to this site. Further details for servicing and waste collection facilities will be reviewed at the development permit stage.

Stakeholder Engagement, Research and Communication

In keeping with Administration's standard practices, this application was circulated to relevant stakeholders and notice posted on-site. Notification letters were sent to adjacent landowners and the application was advertised online.

The Albert Park / Radisson Heights Community Association was circulated the application, however did not provide comments. Administration followed up with the Community Association, however no response was received.

Administration received one phone call in opposition to the application with the concern of lack of on-street parking.

Strategic Alignment

South Saskatchewan Regional Plan (Statutory, 2014)

The recommendation by Administration in this report has considered and is aligned with the policy direction of the South Saskatchewan Regional Plan (SSRP) which directs population growth in the region to Cities and Towns and promotes the efficient use of land.

Municipal Development Plan (Statutory, 2009)

The site is located within the 'Residential - Developed – Established' area of the *Municipal Development Plan* (MDP). The applicable MDP policies encourage modest redevelopment that incorporates a mix of land uses and a pedestrian-friendly environment.

The proposal is in keeping with relevant MDP policies as the rules of the R-CG District provide for development forms that may be sensitive to existing residential development in terms of height, built form and density.

Albert Park/Radisson Heights Area Redevelopment Plan (Statutory, 1989)

The site is located within the *Albert Park/Radisson Heights Area Redevelopment Plan* (ARP). The ARP makes no specific mention of the site, which is located in the low density residential area in the plan, but encourages compatible infill development.

Social, Environmental, Economic (External)

The recommended land use allows for wider range of housing types than the existing R-C2 District and as such, the proposed change may better accommodate the housing needs of different age groups, lifestyles and demographics.

Financial Capacity

Current and Future Operating Budget:

There are no known impacts to the current and future operating budgets at this time.

Current and Future Capital Budget:

The proposed amendment does not trigger capital infrastructure investment and therefore there are no growth management concerns at this time.

Risk Assessment

There are no known risks associated with this application.
