Entryway and Collector Streets: Belvedere

The name Belvedere is requested to provide a consistency with the approved Community name and recognize the historical connection of the name to these lands. However, it is recognized there is a concern with Emergency services due to the existence of Belvedere Road within the southwest Community of Belaire, nearly 20 km away from the site.

To ensure that this confusion is alleviated, we have not proposed the use of Belvedere Road within the Outline Plan Area. The collector streets are named Belvedere Drive, Belvedere Avenue and Belvedere Boulevard as indicated on Figure 2 below.

While our preference is to name all streets within the Outline Plan with the Belvedere suffix, we have also proposed the following names which can be applied at the tentative plan stage: Belview, Belwood and Belhaven.

Figure 2: Belvedere Street Names
