

Development Permit (DP2017-4027) Summary

A development permit application (2017-4027) has been submitted by Frank Architecture on 2017 September 1. The development permit application is for a new Market building to house the Symons Valley Farmers Market after a fire destroyed their building in early 2017. The development permit is under review but with some prior to decision items still needing to be addressed. The following excerpts (Figure 1 & 2) from the development permit submission provide an overview of the proposal and are included for information purposes only.

Administration's review of the development permit will determine the ultimate building design and site layout details such as parking, landscaping and site access. No decision will be made on the development permit application until council has made a decision on this land use redesignation.
