Subject: CPC2019-0311 - Comments from the 2019 March 21 CPC Meeting
Date: Tuesday, March 26, 2019 6:59:59 PM

Comments from Commissioner Schmalz:

Parks:

- Why can't we (The City) take the Municipal Reserve at subdivision or development permit, if the policy is written as such?
- Encourage applicants to work together and create 'pocket' parks

Lanes:

- Encourage lanes so we have a better back of house (access/garbage/loading).

Reasons for Approval from Commissioner Juan:

I fully support this application and the holistic planning approach it brings to this part of the city. I believe it will serve both the community and act as a destination for Calgarians.

I encourage administration to work with the new urban agriculture policies to incorporate urban agriculture into the proposed green spaces to compliment the Market and community uses. Appreciating the green spaces apply both active and passive uses I am hopeful that the redevelopment vision will align with the urban agriculture policies.
