<b>Calgary</b> 	<b>What We Heard</b>	
<p>Tear up 14th Street at the same time as you upgrade Glenmore Dam at the same time as you boost utility rates at the same time as you raise minimum wages at the same time as you raise taxes. Surprise!! Businesses actually can't handle it all.</p>		
<p>It's a really great park, very well kept up, great collection. It's a major jewel to have here.</p>		
<p>I think the park prices are very reasonable. The season passes are very well priced and make the most sense.</p>		
<p>A wonderful blend of so many things from days gone by. We love going to HP. You get an entire day of adventure and culture. People don't think twice to spend \$100 or more at the cinema for 2 hours.</p>		
<p>The City grounded the Moyie with reservoir upgrades; screwed up access on 14th Street; left them to deal with carbon tax and minimum wage in-creases in costs. All with a mandate to cope without increased municipal funding. What choice did they have except to raise gate fees?</p>		
<p>So happy to have purchased our annual family pass to support this great experience in our city. We will continue to support it every year.</p>
