

Related Initiatives

This attachment identifies a number of initiatives that are ongoing in 2019-2020 with relationship to the Strategy and Main Streets Investment Program. Brief project descriptions and key milestones for 2019 are identified.

| Initiative | Brief Description | Milestones |
|--|--|---|
| Next20 MDP and CTP Review | This is a review and update of the MDP and CTP. The project is in first of two phases and focuses on specific elements of the Plans informed by the 2018 Monitoring Progress Report in combination with supplementary research and multi-tiered engagement. | 2019 Q4 Scoping Report and Recommendations for Focus of Review |
| Developed Areas Guidebook (DAG) review and Land Use Bylaw Review | Amendments to the DAG to provide clearer direction on local area planning and the compatibility of infill developments within the Developed Areas. Coordination with the Land Use Bylaw to create a new planning system to support existing communities | 2019 Various Reports (May, June, July, September) |
| Multi-Community Planning | Comprehensive planning update to local area planning and policies and land use districts. 200+ dated local area plans will be replaced by about 50 local area plans over the next 10 years. | 2019 Q4 North Hill Growth Plan Report |
| Stormwater Strategy | Working with stakeholders towards an updated Stormwater Strategy and corresponding Stormwater Plan, which will establish the principles and outcomes for how stormwater is managed in Calgary in the future. Interim measures are currently being developed through a stakeholder working group. | 2019 continued engagement |
| Established Area Growth and Change Strategy | Strategic program of work to evaluate when, where and how financial and planning tools can support redevelopment, growth, and the quality of life in existing communities. | 2019 May Update Report 2020 March Phase 1 Recommendations |
| Main Streets Investment Program and Implementation | Working with local residents, business owners, and developers to develop plans for 24 mains street areas that are well suited for long-term growth. Design work is currently underway on six of the priority main street areas. | 2019 May 1 PUD Update Report |
| Transit Oriented Development (TOD) Strategy | This strategy is considering city-wide TOD locations, evaluating how to strategically support TOD development. | 2019 Q4 Strategy Report |
| Green Line City Shaping | This program is about investing and improving communities connected by a rapid transit network with a focus on people, places, and programs | 2019 April Scoping Report on Public Gardens |
| Integrated Civic Facilities Planning Program | Development of a Corporate Facility Portfolio Plan that will identify all corporate facilities (existing and future) and how specific facility projects will deliver on corporate goals including whether or not those facilities are single use or multi-service. | Reports to align with Budget Process, and specific project requirements |
| Off-site Levy Bylaw Review | This work will review the existing Centre City and Off-site Levy Bylaws, reflecting recent legislative changes. | 2021 Proposed Bylaw(s), with updates to Council from 2019 - 2020 |
