The City’s Performance Management System
If we aren’t moving forward, we’re falling behind.

What is it?
The Performance Management System is a disciplined approach to continuous improvement designed to better serve our customers, communities and citizens.

Why do we need it?
In a dynamic and complex organization, it’s challenging to be consistent and effective. The City is charged with the responsibility of delivering a wide array of programs and services under the pressures of increasing service demands, competing priorities and limited funding, all within a changing environment.

The Performance Management System provides tested methods and tools that allows us to manage our programs and services in a more consistent, effective and efficient way.

What are the benefits?
A successfully implemented Performance Management System can:
- Increase our citizen-focus
- Help us achieve better performance results
- Improve our decision-making
- Develop our organizational capacity
- Connect our work cross-corporately

What’s included in the system?

<table>
<thead>
<tr>
<th>Service Review and Improvement</th>
<th>Service Plans and Budgets</th>
<th>Performance Measurement and Accountability</th>
<th>Integrated Risk Management</th>
<th>Individual Performance Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Corporate Zero Based Review (ZBR) program.</td>
<td>- The systems, processes and support for Service Plans and Budgets.</td>
<td>- Results Based Accountability (RBA™) framework</td>
<td>- Coordinated set of activities and methods to direct and manage risks.</td>
<td>- Plan, develop and assess employee performance.</td>
</tr>
<tr>
<td>- Self-initiated improvements.</td>
<td>- Corporate strategy on efficiency and effectiveness and productivity guidelines in budgets (e.g. Action Plan).</td>
<td>- Performance Measurement</td>
<td>- Consistent identification, assessment and management of risks.</td>
<td>- Connect employee performance objectives to business results and citizen outcomes.</td>
</tr>
<tr>
<td>- Corporate strategy on efficiency and effectiveness and productivity guidelines in budgets (e.g. Action Plan).</td>
<td>- Annual adjustments.</td>
<td>- Accountability reporting</td>
<td>- Engage, attract and retain employees.</td>
<td></td>
</tr>
<tr>
<td>- Corporate strategic planning process.</td>
<td></td>
<td>- Benchmarking</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Note: Corporate Initiatives stewards all components above except Individual Performance Development, which is stewarded by HR. These components are aligned to the various other programs and systems within the organization.

Who is responsible?

- Executive sponsors (City Manager, Chief Financial Officer)
- Leaders (Senior Management Team, Administrative Leadership Team)
- Active users (e.g. managers, leaders, planners, policy makers, report writers)
- All employees
- Stewards and support network (Corporate Initiatives, HR, super users)

Value
- Clarifies role in supporting the organization to achieve objectives and provide services to citizens.
- Provides consistency in a complex and dynamic organization.
- Will increase the trust and confidence of Council and citizens in the organization.

What’s needed from them
- Communicate what the Performance Management System is and how it can be applied.
- Develop, enhance and continuously improve the tools within the system.
- Support active users in applying the tools.
- Continuously improve expert knowledge of the system tools.

Telling the Performance Management System story
- The Performance Management System is part of the DNA of our organization.
- The system provides us with a disciplined approach to continuous improvement, and the strands of this approach are in all that we do.
- We move forward through continuous improvement, supporting the success of the programs and services that our citizens value most.
- The Performance Management System is designed to increase our organization’s capacity, enabling us to be as efficient and effective as possible with tax dollars.
- This efficiency and effectiveness supports us in achieving one of our organization’s major priorities – to better serve our customers, communities and citizens.
Roles and responsibilities

Executive sponsors
(City Manager, Chief Financial Officer)

Leaders
(Senior Management Team, Administrative Leadership Team)

Active users
(e.g. managers, leaders, planners, policy makers, report writers)

All employees

Value
- Provides consistency in a complex and dynamic enterprise.
- An effectively integrated performance system can provide Council and citizens with trust and confidence in the organization.
- Develops organizational capacity.

What’s needed from them
- Endorse the Performance Management System by articulating advantages and encouraging others to use it.
- Identify opportunities to use the system within existing programs, processes and work, while integrating the system into new work and emerging needs.
- Recognize and reward when the system is being applied.
- Model the system: use it in decisions and discussions with peers and direct reports.

Value
- Makes their jobs easier by:
  - Helping leaders turn ideas into results (including delivering service to citizens).
  - Providing a simple and consistent approach to problem-solving.
  - Formalizing, connecting and strengthening activities leaders are already doing.
  - Providing a tested method and tools for management decisions.

What’s needed from them
- Understand the Performance Management System (including what it is and how to apply it).
- Actively pursue opportunities and encourage the use of the system.
- Identify opportunities to collaborate and apply the system across the organization.
- Model the system: use it in decisions and discussions with peers and direct reports.

Value
- Endorses the Performance Management System by articulating advantages and encouraging others to use it.
- Identifies opportunities to use the system within existing programs, processes and work, while integrating the system into new work and emerging needs.
- Recognizes and rewards when the system is being applied.
- Models the system: uses it in decisions and discussions with peers and direct reports.

What’s needed from them
- Understand the Performance Management System (including what it is and how to apply it).
- Actively pursue opportunities and encourage the use of the system.
- Identify opportunities to collaborate and apply the system across the organization.
- Model the system: use it in decisions and discussions with peers and direct reports.

Value
- Employees feel more engaged as they understand how their individual contributions translate into meaningful work to support organizational results.
- Have an awareness of results.
- Understand how individual contributions connect to the big picture (individual responsibility, collective accountability).
- Apply relevant components of the Performance Management System.

Connections within the system

Evaluate service efficiency and effectiveness using performance measurement trends over time and in comparison to other similar service providers (benchmarking).

Monitor principal risks using quality of life indicators and/or performance measures, to determine when additional risk management is needed.

Use the RBA method to assess service levels and identify options and solutions when service results are “not ok”.

Business planning and risk management strategies incorporated into individual goals.

Efficiencies of service leads to increased quality of life.

Increase service efficiency by identifying (through service reviews), areas where we are overly risk-averse, and where accepting an increased level of risk would offer substantial efficiency gains with minimal impact on service levels.

…and many more!

If we aren’t moving forward, we’re falling behind.

Increase service efficiency by identifying (through service reviews), areas where we are overly risk-averse, and where accepting an increased level of risk would offer substantial efficiency gains with minimal impact on service levels.

Use the RBA method to assess service levels and identify options and solutions when service results are “not ok”.
