Re: 33 AV and 34 AV SW (Marda Loop) Streetscape Master Plan

The Marda Loop Communities Association (MLCA) has been involved in the Streetscapes engagement process over the past two years. The MLCA has advocated for engagement and involvement in shaping our evolving communities, and strongly supports the Streetscape Master Plan. We welcome a clear direction from The City regarding their vision for redevelopment within inner-city communities, and believe this plan offers a great opportunity to help create the kinds of streets we want to see in our neighbourhood.

With the degree of redevelopment already occurring along 33 and 34 AV SW, it will be beneficial to have a plan that supports this and future growth in a consistent and proactive manner. It is encouraging to know The City continues to work to find a long-term solution to ensure the implementation of the Streetscape Master Plan.

Sincerely,

MacKenzie Kroeger
